Hoosier Health has a new Valparaiso Office!

I am excited to tell you about our new location in Valparaiso. We now mirror our Portage site offering a full clinic to better serve and meet your needs. Our service offerings include: Occupational Health, Immediate Care, X-Ray Center, DOT / Physicals, and Wellness checks. We have added more staff to serve our client base. We are in the process of adding additional services and are offering walk-in Immediate Care. Our plan is to be able to offer extended weekday and weekend hours, depending on our client's needs. Our near term plans are to partner with other service providers to have Primary Care Physicians, Pain Management, Physical Therapy and much more. As always, we welcome your input and suggestions to help further serve the needs of our community. Please check our website, www.hoosier-healthcare.com for further updates.

Thank you for your support and helping us grow.

Sincerely,

Donald E. Kiger
