Pre-Employment Physicals

Pre-employment physicals are becoming an increasingly important component of the hiring process for many businesses and Hoosier Healthcare can provide these physicals for your new employees.

Pre-employment physical exams provide employers with several benefits including preventing absenteeism (due to injury or illness) and reducing costs associated with Worker's Compensation, rehiring and retraining employees. Determine proper placement of employees and reasonable accommodation of qualified applicants. Establish employees' baseline health status and promote workplace safety.

Contact Hoosier Healthcare for additional information, and let us answer your questions, regarding any of your occupational healthcare needs.

A note from Don Kiger, New Owner of Hoosier Healthcare;

Dear valued customer,

I am pleased to announce Hoosier Healthcare N.W. is under new Management and Ownership. Hoosier Healthcare N.W. has served the Indiana communities for over five years to date. We are hoping to continue the outstanding service you have enjoyed in the coming years and many more to follow. As the new owner, I am committed to providing new and innovative services while continuing to provide the same services that have sustained Hoosier Healthcare for the past five years.

We cherish the relationships and friendships the former management and staff have developed over the last half decade. I am personally looking forward to meeting each and every one of you in the coming days and months. Like the old adage "don't fix what is not broken" and that is exactly what I plan on doing. Hoosier Healthcare N.W. is keeping the same service model while increasing our offerings in Urgent Care and Wellness.

The success of Hoosier Healthcare has been built on personalized service and our offering in Occupational Medicine, Wellness and Urgent Care. I am pleased to state the entire staff will remain here with me to meet the challenges moving forward. I am also pleased to announce the development of our new Web Site that should be released in the coming days. We are also in the process of releasing a new program for our clients who do not have access to health care coverage called "Health e Access". For more information please refer to our Web Site!

Again I am looking forward to meeting the demands of the Health Care market place so please feel free to reach out to me personally at your convenience. I have included my personal e mail as well as my contact information. I am looking forward to meeting and exceeding your needs.

Sincerely,

Donald E. Kiger
